

Jungle Trekking.....Waitukubuli style

For 15 months we were part of the design of the Waitukubuli National Trail, and now we proudly launch JTAS Waitukubuli, our white glove tour service along this recently completed 115 mile-long route.

Experience the Caribbean's first and only long distance walking trail with us14 segments of wild nature - flora and fauna, waterfalls, rivers, gorges, mountains, breath-taking views, and encounters with our friendly people.

JTAS Waitukubuli is all about discovering the very best of Dominica's nature, cultural heritage and local lifestyles - hiking through virgin forests, farm lands, communities, and coastal and other uninhabited areas.....your way.

Experiences and adventures vary, catering to the entire family, and to the outdoor enthusiast and adventure seeker!

For additional information and other specified needs, kindly contact Michael or Daria Eugene.
